New system for wooden folding doors
Nuovo sistema per porte pieghevoli in legno

VersAtile

Terno Scorrevoli is always looking for innovative solutions to constantly improve its product catalogue. From this continuous research, Terno Scorrevoli presents **Versatile, new system for wooden folding doors**, the natural **evolution** of our historical products: **Foldy, Accordion and Pratico.**

Terno Scorrevoli, da sempre alla ricerca di soluzioni innovative per migliorare costantemente il suo catalogo prodotti, presenta **Versatile**, il **sistema per porte pieghevoli in legno**, naturale **evoluzione** dei nostri storici prodotti: **Foldy, Accordion e Pratico.**

Advantages of Versatile System

Versatile has important new features

- **Load capacity up to 80 kg:** the use of the new track allows for higher load capacities than the systems currently in the catalogue.
- **Two types of installation:** the track can be recessed into the jamb, or fixed externally to the jamb (or under the ceiling).
- **Reduced top light:** thanks to the use of the Hide bracket, the gap between the track and the door is only 6 mm, for a formidable aesthetic result.
- **Fluid Technology:** the system's slides integrate patented Fluid technology for extremely smooth and high-performance movements.
- **Perfectly aligned doors:** with door thicknesses of more than 40 mm, the system ensures precise, aligned door packing when opening.
- **Easy to install:** thanks to the split bracket, the first part of the door can be attached to the hinges in a few steps, the second part can be easily mounted on the pivot, and the other doors can be installed in the same way.

Vantaggi del sistema Versatile

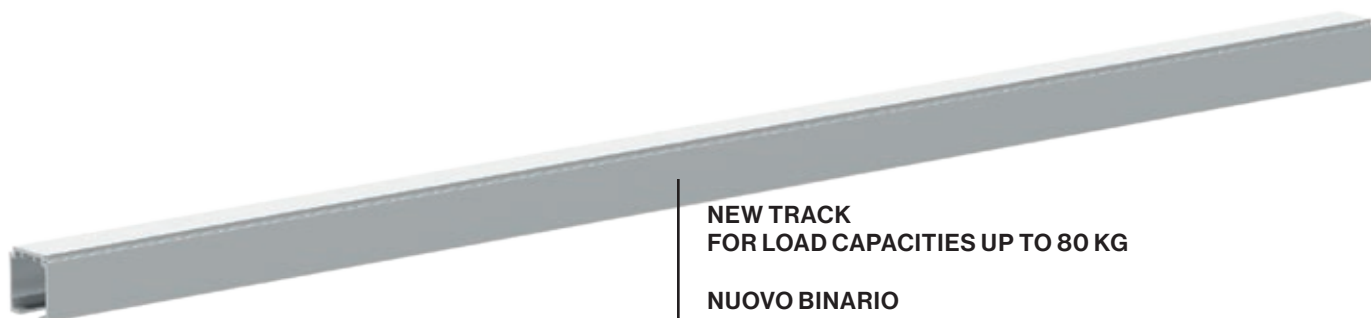

Versatile presenta nuove, importanti, caratteristiche:

- **Portata fino a 80 kg:** l'utilizzo del nuovo binario consente portate superiori, rispetto ai sistemi attualmente a catalogo.
- **Doppia tipologia di installazione:** il binario può essere incassato nello stipite, oppure fissato esternamente allo stipite (o sotto il soffitto).
- **Luce superiore ridotta:** grazie all'utilizzo della staffa Hide, il gap tra il binario e la porta è di soli 6 mm, per un risultato estetico formidabile.
- **Tecnologia Fluid:** gli scorrevoli del sistema integrano la tecnologia brevettata Fluid, per movimenti estremamente morbidi e performanti.
- **Ante perfettamente allineate:** con spessori superiori a 40 mm, il sistema garantisce in apertura un impacchettamento delle ante preciso ed allineato.
- **Facilità di installazione:** grazie alla staffa scomposta, in pochi passaggi è possibile fissare la prima parte della porta ai cardini, procedere facilmente al montaggio della seconda parte sul perno e installare allo stesso modo le altre porte.

FOLDING DOORS WITH ODD-NUMBERED PANELS
PORTE A LIBRO CON ANTE DISPARI

**FOLDING DOORS WITH EVEN-NUMBERED PANELS
PORTE A LIBRO CON ANTE PARI**

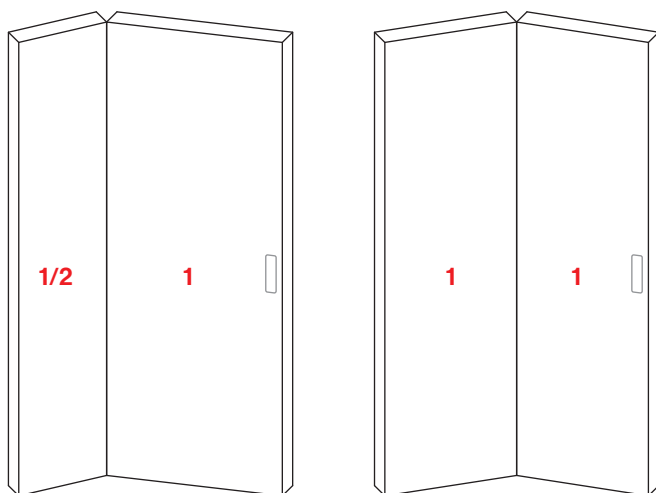

**NEW TRACK
FOR LOAD CAPACITIES UP TO 80 KG**

**NUOVO BINARIO
PER PORTATE FINO A 80 KG**

Flexibility

One system for multiple solutions

Versatile is a flexible system, which allows all possible configurations of folding door catalogue: **folding doors with even-numbered panels, folding doors with odd-numbered panels, double folding doors, accordion folding doors.**

Flessibilità

Un unico sistema per molteplici soluzioni

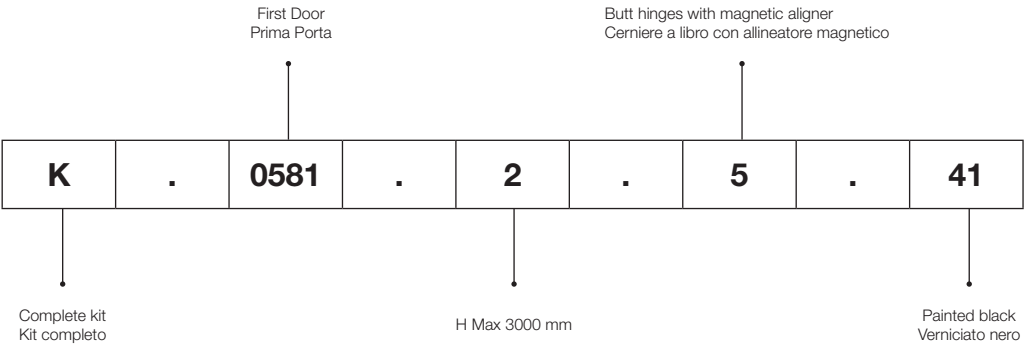

Versatile è un sistema flessibile, che permette la realizzazione di tutte le configurazioni del catalogo porte pieghevoli: **porte a libro con ante pari, porte a libro con ante dispari, doppia porta a libro, porte pieghevoli a fisarmonica.**
